

In order to work alongside - and for - this incredible community, The Nemonium Team wants to ensure that you have a clear understanding of the developmental stage we are currently in to protect not only our team as we build, but you as you invest in our future. Without your trust in Nemonium, working to complete this ecosystem would be an impossibility.

This DAO piece functions as a gamified version until all legal parameters are met and all legal rights are fulfilled. By typing "yes," you acknowledge this and that Nemonium is not responsible for loss and not guaranteeing profit. At this moment in time, no DAO functions as they advertise, and until Nemonium can deliver on this promise we will never misrepresent ourselves as a fully functioning DAO. We are working day and night to ensure that we succeed in this venture.

If you believe in Nemonium - proceed.
